Experience

Web Developer Intern

March 2023 - May 2023

iNeuron Intelligence Pvt Ltd

Remote- Bengaluru, Karnataka

- As an intern, I created a robust chat application in the MERN stack. By employing React.js, Tailwind CSS, Node.js, Socket.io, Express, and MongoDB, I engineered seamless one-to-one and group chat functionalities, solidifying my skills in full-stack web development.

Projects

Vocally Local | *ReactJs, Javascript, Tailwind CSS, Firebase*

- The Vocally Local App successfully bridges the gap between users and local vendors, fostering a sense of community and supporting the growth of small businesses.
- It revolutionizes the local shopping experience, connecting users with nearby stores.
- Effortless order placement directly from shop pages and transparent order history and status tracking for users.
- Vendor capabilities to create, add products, and manage orders through a dedicated dashboard.
- Github** | **Live-Link**

Video Streaming Application | *ReactJs, Redux, Javascript, Tailwind CSS*

- Developed a feature-rich video streaming application utilizing the YouTube API to provide users with a seamless and interactive video-watching experience.
- Incorporated intelligent search suggestions to assist users in finding relevant content quickly, improving the overall search experience.
- Developed a simulated live chat section and implemented a Shimmer UI loader to enhance the user experience during content loading, providing visual feedback and maintaining user engagement.
- Github** | **Live-Link**

Wander Chat | *ReactJs, Tailwind CSS, Javascript, NodeJs, Express, MongoDB*

- Designed and developed a cutting-edge real-time chat application, enabling users to exchange real-time messages effortlessly.
- Supported both one-to-one and group chat functionalities, catering to individual and team communication needs within a single application.
- Implemented a robust group chat system, allowing users to create, join, and manage dynamic group conversations. Users can add or remove members dynamically, enhancing collaboration.
- Integrated a real-time notification system to keep users informed of new messages and other relevant updates.
- Github**

Technical Skills

Languages: JavaScript, HTML/CSS,

Developer Tools: Git, Github, VSCode

Technologies/Frameworks: React.js, Redux, Tailwind CSS, Jest

COURSES

- Acquired skills in Web development through a rigorous full-stack javascript web development bootcamp, developing a variety of real-world projects utilising industry-standard tools and technologies.
